WE ARE HERE TO HELP?

We are able to optimize your on-site screening. Working together with you, we will look for the optimal cut-point. We can demonstrate just what is achievable with your material, whilst on site. You can take active decisions whether the achieved cut points and results meet your expectations.

We are able to use different screen mats to achieve the results required, the mobile test unit has approx. 80 different sets of screen mats on board, offering many options for you to try during the on-site tests.

WE OFFER TO YOU

- Our LIWELL® single deck screening machine, with 3.15 m² area
- A feed hopper with a capacity of approx. 5 m³
- Our own power supply by means of an integrated diesel generator
- Test supervision and evaluation, inclusive of all PSD's

WHAT YOU NEED TO DO?

- You only need a suitable area on site approx. 200 m² for the mobile test facility
- You only need to provide a shovel for loading and removal
- And, of course, make a reservation for yourself with us

So give us a call!
