DELTA II – THE SOLUTION TO ALL YOUR SCREENING PROBLEMS

Screening machines from HEIN, LEHMANN

 HEIN | LEHMANN

CIRCULAR MOTION SCREENING MACHINE

The solution to all your screening problems

HEIN | LEHMANN

DELTA II

- Screening of sticky materials
- Reclamation of stock piles
- Screening without pegged or blinded screen decks
- Maximum grain size approx. 300 mm

Unlike conventional circular motion screening machines, the Delta 2 operates with a G-force in excess of 6g.

COMPARED WITH CONVENTIONAL SCREENING MACHINES, THE DELTA 2 REQUIRES:

- up to 40 % smaller screen area or offers
- up to 40 % more capacity with the same screen area.
